THE JOHANNES SCHOOL OF MUSIC is a distinguished network of boutique music schools, studios, and home visit services spanning across the United States, Australia, and New Zealand. Renowned for personalized one-to-one instruction and classes, we guide students towards international proficiency, leading to prestigious diplomas, certifications, and potential high school and college credits. Our comprehensive programs prepare students for successful careers in music, whether in performance, composition, musicology, or pedagogy, or for self-enrichment and enjoyment.

We nurture a child's innate musical gift, honing their aural perception and notation skills from as early as five years old. By integrating aural awareness, abstract thinking, melody writing, chordal progressions, and improvisation, students become well-rounded musicians, proficient sight-readers, and efficient learners. Join us at the Johannes School of Music for a transformative musical journey, experiencing our personalized approach, expert guidance, and unwavering commitment to excellence.
